

Heavy torpedo shaped nozzles.

5° and 10° inclination jets offer to the nozzle high traction capacity. Low inclination jets pull back sedimentation without attacking pipe walls.

Ceramic inserts provide high and long lasting performance. Thanks to external hexagonal heads, inserts are easy to remove for service and replacement.

A deviator set inside the nozzle maximizes flow efficiency reducing pressure drop.

	3/4" F	1" F	1 1/4" F
Ø x L (mm)	68x125	98x210	98x210
Weight (lb)	5.5	12.5	12.5
Jet inclination	5°/10°	5°/10°	5°/10°
Inserts	6 (M10x1)	10 (M10x1)	10 (M10x1)
Pressure (bar)	2,000-3,000	2,000-3,000	2,000-3,000
Flow rate (gpm)	30-50	50-80	50-120
Part number	65540.760	65540.710	65540.750

Applications:

- Long runs, old pipes.
- Removal of sand, silt and gravel, heavy sludge, sedimentations.
