

MANIAGO

	1" F
	88x140
Weight (lb)	7
Rotation inserts	3x90° (TE M6)
Rear inserts	6x20° (TE M6)
Max pressure (psi)	3,000
Flow rate (gpm)	50÷100
Nozzle w/flat head (no chains)	75000.06
Maniago kit	VALK6C1.01

Root cutter chain rotating nozzles, made by stainless steel, with interchangeable head.
 Chain installation is very easy. Type of chain has to be selected according to pipe size and the type of roots.
 Maniago nozzles come as set composed by nozzle, 2 heads (flat and w/ knives), sets of chains, tools for service and set up, plastic box.
 Nozzle is set with ceramic inserts with external hexagonal head.

Applications

Removal of roots, bad liners, rust and scales.
 To be used in round profile pipes, always with pipe centralizer and with set of chains of same type and length, to be selected in relation of working DN.

Chain sets
(ring, sprocket and blades)
